

International School for Intercultural Philosophy

- EIFI –

Philosophy, Spirituality, Society
For a plural coexistence in a common world

MAIN OBJECTIVES

-  To create an open space for dialogue and for the creation of knowledge, in which memories of different cultures are incorporated
-  To propose alternatives to the forms of knowledge and life of the dominant model of civilisation
-  To promote the intercultural and interreligious transformation of academic education by fostering dialogue between sciences and spiritual traditions
-  To encourage participatory projects in local communities for the integration of thinking and life processes
-  To connect the search for meaning with political action
