

## **EUROPE IN DIALOGUE WITH IST OWN DIVERSITY**

### **EIFI-Seminar series 2019**

Is Europe able to enter in a dialogue with the diversity of its “euro regions” and to overcome the interests of State?

To engage in this debate, the International School for Intercultural Philosophy (EIFI) will organize a seminar series in 2019 at the central seat in Barcelona. In the seminars of this series (see list below), the current status of the identity debate in the different European countries will be analysed. Concurrently there will be a debate on perspectives for social coexistence in an intercultural Europe reconfiguring itself from its own regions.
