

International School for Intercultural Philosophy

- EIFI -

Philosophy, Spirituality, Society

For a plural coexistence in a common world

MAIN OBJECTIVES OF THE EIFI

- **To create** an open space for dialogue to approach a knowledge incorporating the knowledge and wisdom from the different cultures of humanity.
- **To develop** alternatives to forms of knowledge and life of the hegemonic civilization.
- **To promote** an intercultural and interreligious transformation of academic education through dialogue between the sciences and spiritual traditions.
- **To encourage** joint development of projects integrating the thinking and life of local communities.
- **To link** questions of meaning and political implementation.
